- Net sales MEUR 81.4 (Q3/2007: MEUR 77.5)
- Operating profit MEUR 12.2 (13.4)
- Operating profit 15.0% (17.3%) of net sales
- Operating profit for the comparison period includes a one-time capital gain of MEUR 0.7
- Profit before taxes MEUR 12.1 (13.9)
- Earnings per share EUR 0.11 (0.14)
- Outlook for the remainder of the year unchanged

Kai Telanne, President and CEO:

Alma Media's business developed as expected during the third quarter, despite growing uncertainty in the national economy and the media market. The Group net sales increased 5% over the same period last year, but the operating profit fell behind. The result was affected by factors such as continuing investments in online businesses and slowing advertising sales.

Advertising sales for the Group's newspapers continued to grow in the third quarter. Of the largest newspapers, I am satisfied with Iltalehti's performance in particular: it succeeded both in growing its advertising sales significantly and improving its market share in a very competitive environment. Advertising sales for Lapin Kansa also developed favourably. Aamulehti's advertising sales remained at the previous year's level.

Kauppalehti enjoyed a strong quarter with positive development in advertising sales, online business and profitability. In the third quarter, Kauppalehti also reached new circulation and visitor records.

The growth of Marketplaces' net sales slowed down due to the softened recruitment market. The general economic uncertainty has caused companies to postpone their recruitment decisions, which has slowed the growth of Monster.fi sales. Our investment in the Mikko.fi business in Finland and the City24 home sales services in Eastern Europe decreased the operating profit of Marketplaces. The investments will continue to affect the profitability of the Marketplaces segment in the fourth quarter. As the markets for home sales, car sales and recruitment are becoming quieter in Finland as well as in other countries, the growth of Marketplaces will probably slow down and its profitability decline.

Advertising sales for our newspapers in the fourth quarter are supported by local election advertisement as well as new retail store openings.

Forecasting the advertising sales development in the fourth quarter has become more difficult due to slowing economic growth and the financial markets turmoil.

Market conditions

According to estimates available at the time of writing the report, the gross national product of Alma Media's main market, Finland, is expected to grow on average 2.5% in 2008. Finland's economic growth is slowing down rapidly.

In its latest Economic Survey (September 2008), the Ministry of Finance expects inflation to gradually slow down next year and the purchasing power of households to increase by 3.5% in 2009. The continuing weakness of the international economy, however, increases the vulnerability of the Finnish economy.

In January–September, advertising expenditure in newspapers decreased by 0.6%. During the same period, online advertising increased by 27.5%. In January–September, the circulation market for afternoon papers diminished by 6.6%.

Advertising sales in the Newspapers segment grew by 4.4% in the third quarter. Iltalehti, Iltalehti.fi and Lapin Kansa increased their advertising sales strongly. In Aamulehti, September was a challenging time for advertising sales.

The operating profit of the Newspapers segment decreased by 4.0%, totalling MEUR 10.0 (10.4). The decrease was due to investments in the development of online services and the slowing down of Aamulehti's advertising sales.

The July–September net sales for Marketplaces were MEUR 8.4 (7.6). Net sales growth slowed down to 11.1%. The growth of Monster's sales in particular slowed down due to a significant decrease in the growth of the recruitment market. The decrease in the home sales market during the third quarter did not have a marked effect on the net sales development of the Etuovi.com online service.

The net sales of Marketplaces' international operations increased to MEUR 1.5 (1.4) despite the market conditions in the Baltic countries and Eastern Europe.

The operating profit of the Marketplaces segment decreased 23.1% from the corresponding period in the previous year, now being MEUR 1.0 (1.3). Investments in the Mikko.fi business in Finland and the City24 home sales services in Eastern Europe were the main contributors to the decrease in profitability.

Risks and risk management

The most important strategic risks for Alma Media are a significant drop in the readership of its newspapers and a critical decline in retail advertising. The major operational risks are disturbances in information technology systems and telecommunication, and an interruption of printing operations.

Alma Media's risk management process identifies the risks, develops appropriate risk management methods and regularly reports on risk issues to the risk management organisation.

Administration

Mr Tuomas Itkonen has been appointed Chief Financial Officer of Alma Media Corporation and member of the Group Executive Team. He started in the position on October 1, 2008.

In July-September, altogether 5,994,670 Alma Media shares were traded at Nasdaq OMX Helsinki, which represented 8.0% of the total number of shares. Option rights

The Annual General Meeting of March 8, 2006 approved a three-stage option programme (option rights 2006A, 2006B and 2006C), disapplying the pre-emptive subscription right of the shareholders. Under the programme, stock options may be granted to the managements of Alma Media Corporation and its subsidiaries as incentives for ensuring motivation and long-term commitment. Altogether 1,920,000 stock options may be granted in three lots of 640,000 each, and these may be exercised to subscribe to a maximum of 1,920,000 Alma Media shares.

A total of 515,000 2006A options have been issued to Group management. Altogether 75,000 of the 2006A options have been returned to the company due to the termination of employment contracts. After the returned options, Group management possesses a total of 440,000 2006A option rights. The option rights of the 2006A programme are traded at Nasdaq OMX Helsinki since April 10, 2008.

In 2007, the Board of Directors of Alma Media decided to issue 515,000 options under the 2006B programme to Group management.

In 2008, the Board of Directors of Alma Media decided to issue 520,000 options under the 2006C programme to Group management.

In 2007 and 2008, the Board of Directors decided to annul the 200,000 2006A option rights in the company's possession. In 2008, the Board of Directors decided to annul the 125,000 2006B option rights in the company's possession.

If all the subscription rights are exercised, this programme would dilute the holdings of the earlier shareholders by 2.1%.

The share subscription periods and prices are:

2006A: April 1, 2008-April 30, 2010, average trade-weighted price April 1-May 31, 2006

2006B: April 1, 2009-April 30, 2011, average trade-weighted price April 1-May 31, 2007

2006C: April 1, 2010-April 30, 2012, average trade-weighted price April 1-May 31, 2008

The subscription price of shares that may be subscribed under these stock option rights will be reduced by the amount of dividends and capital repayments decided after the start of the period determining the subscription price and before the subscription of shares, on the settlement date for each dividend payment or capital repayment. The share subscription price under the 2006A option was EUR 5.58 per share, the subscription price under the 2006B option was EUR 8.95 and the subscription price under the 2006C option was EUR 9.06, correspondingly.

CONTINGENT LIABILITIES

The Group has contingent liabilities totalling MEUR 7.8. The tax authorities have issued a claim to correct the company's income tax for 2003. The tax authorities consider that the loss arising from Alma Media's disposal of the shares of its associated company Talentum to Kauppalehti Oy at the market price should not have been tax-deductible. At the end of 2006 (December 20, 2006) the company was informed of a ruling by the Adjustments Board of the Corporate Taxation Centre to the effect that the Adjustments Board rejected the claim by the tax authorities. The tax authorities have appealed the Adjustments Board's ruling to the Helsinki Administrative Court. The company continues to believe that it is improbable that the claim will lead to additional tax consequences since the transaction was carried out at market prices for commercial reasons. The ruling of the Helsinki Administrative Court is expected before the end of 2008.

MAIN ACCOUNTING PRINCIPLES (IFRS)

This interim report has been prepared according to IFRS standards (IAS 34).

The report applies the same accounting principles and calculation methods as the previous annual accounts dated December 31, 2007. However, the interim report does not contain all the information or notes to the accounts included in the annual report. This interim report should therefore be read in conjunction with the company's annual report.

The key indicators are calculated using the same formulae as applied in the previous annual financial statements.

Since the beginning of 2008, the Group has adopted the following new accounting standards and interpretations:

IFRIC 11 IFRS 2 – Business operations concerning the shares of group companies and own shares

New accounting standards and interpretations to be adopted from the beginning of 2009 are:

IFRS 2 Share-based payments, amendment to standard

IFRS 8 Operating segments

IAS 1 Presentation of financial statements, amendment to standard

IAS 23 Borrowing costs, amendment to standard

The Group preliminarily expects that the above new standards and interpretations will have only a minor effect. Their application mainly affects the way of presenting the profit and loss statement, the balance sheet, changes in equity and notes to the financial statements.

The European Union has not yet approved the adoption of the amended standards IFRS 2, IAS 1 and IAS 23. An EU approval is necessary for the amended standards to be adopted within the Group.

New accounting standards to be adopted from the beginning of 2010 are:

IFRS 3 Business combinations, amendment to standard

IAS 27 Consolidated and separate financial statements, amendment to standard

These amendments will affect the treatment of future acquisitions as far as, for example, the minority share, goodwill and acquisition costs are concerned. The amendments will have no effect on acquisitions already made.

These amended standards are not yet approved for application in the EU. This approval is necessary for their adoption by the Group.

The Group's long-term receivable from the associated company Acta Print Kivenlahti Oy is shown in the balance sheet under assets available for sale. Alma Media intends to relinquish its entire holding in this company. The divestment is not expected to have a significant impact on Alma Media's financial position.

The figures in this interim report are unaudited.

SEASONALITY

The Group recognises its circulation revenues as paid. For this reason circulation revenues accrue in the income statement fairly evenly during the four quarters of the year. The bulk of circulation invoicing takes place at the beginning of the year and therefore the cash flow from operating activities is strongest early in the year. This also affects the company's balance sheet position in different quarters.

GENERAL STATEMENT

This report contains certain statements that are estimates based on the management's best knowledge at the time they were made. For this reason they contain a certain amount of risk and uncertainty. The estimates may change in the event of significant changes in the general economic and business conditions.

NEXT INTERIM REPORT

Alma Media will publish its financial statements for the year 2008 at 9:00am (EET) on Friday, February 13, 2009.
